About the job

Job Description

Sanmina Corporation (Nasdaq: SANM) is a leading integrated manufacturing solutions provider serving the fastest growing segments of the global Electronics Manufacturing Services (EMS) market. Recognized as a technology leader, Sanmina Corporation provides end-to-end manufacturing solutions, delivering superior quality and support to Original Equipment Manufacturers (OEMs) primarily in the communications networks, defense and aerospace, industrial and semiconductor systems, medical, multimedia, computing and storage, automotive and clean technology sectors. Sanmina Corporation has facilities strategically located in key regions throughout the world.

Data Analyst Intern

- Implement efficient ways of collecting data from various sources
- Review and analyze collected data to provide actionable insights to the management team
- Develop and maintain databases, data systems, and data visualization tools
- Collaborate with different teams to identify opportunities for process improvement and optimization
- Design and implement data-driven strategies to support business objectives
- Monitor and analyze key performance indicators (KPIs) to evaluate the success of initiatives
- Handling sensitive data and details in line with established protocols.

- Overseeing and structuring the reporting ecosystem, which encompasses data inputs, security measures, and metadata.
- Assisting the data storage facility in recognizing and updating the criteria for reporting.
- Educating final users on newly introduced reports and dashboard interfaces.
- Stay current with industry trends and best practices in data analysis and business intelligence

Annual Salary Range: \$39,520.00 - \$41,600.00

Sanmina is an Equal Opportunity Employer – M/F/Veteran/Disability/Sexual Orientation/Gender Identity
